

Main bearings: T3 Segment - Taper roller bearings

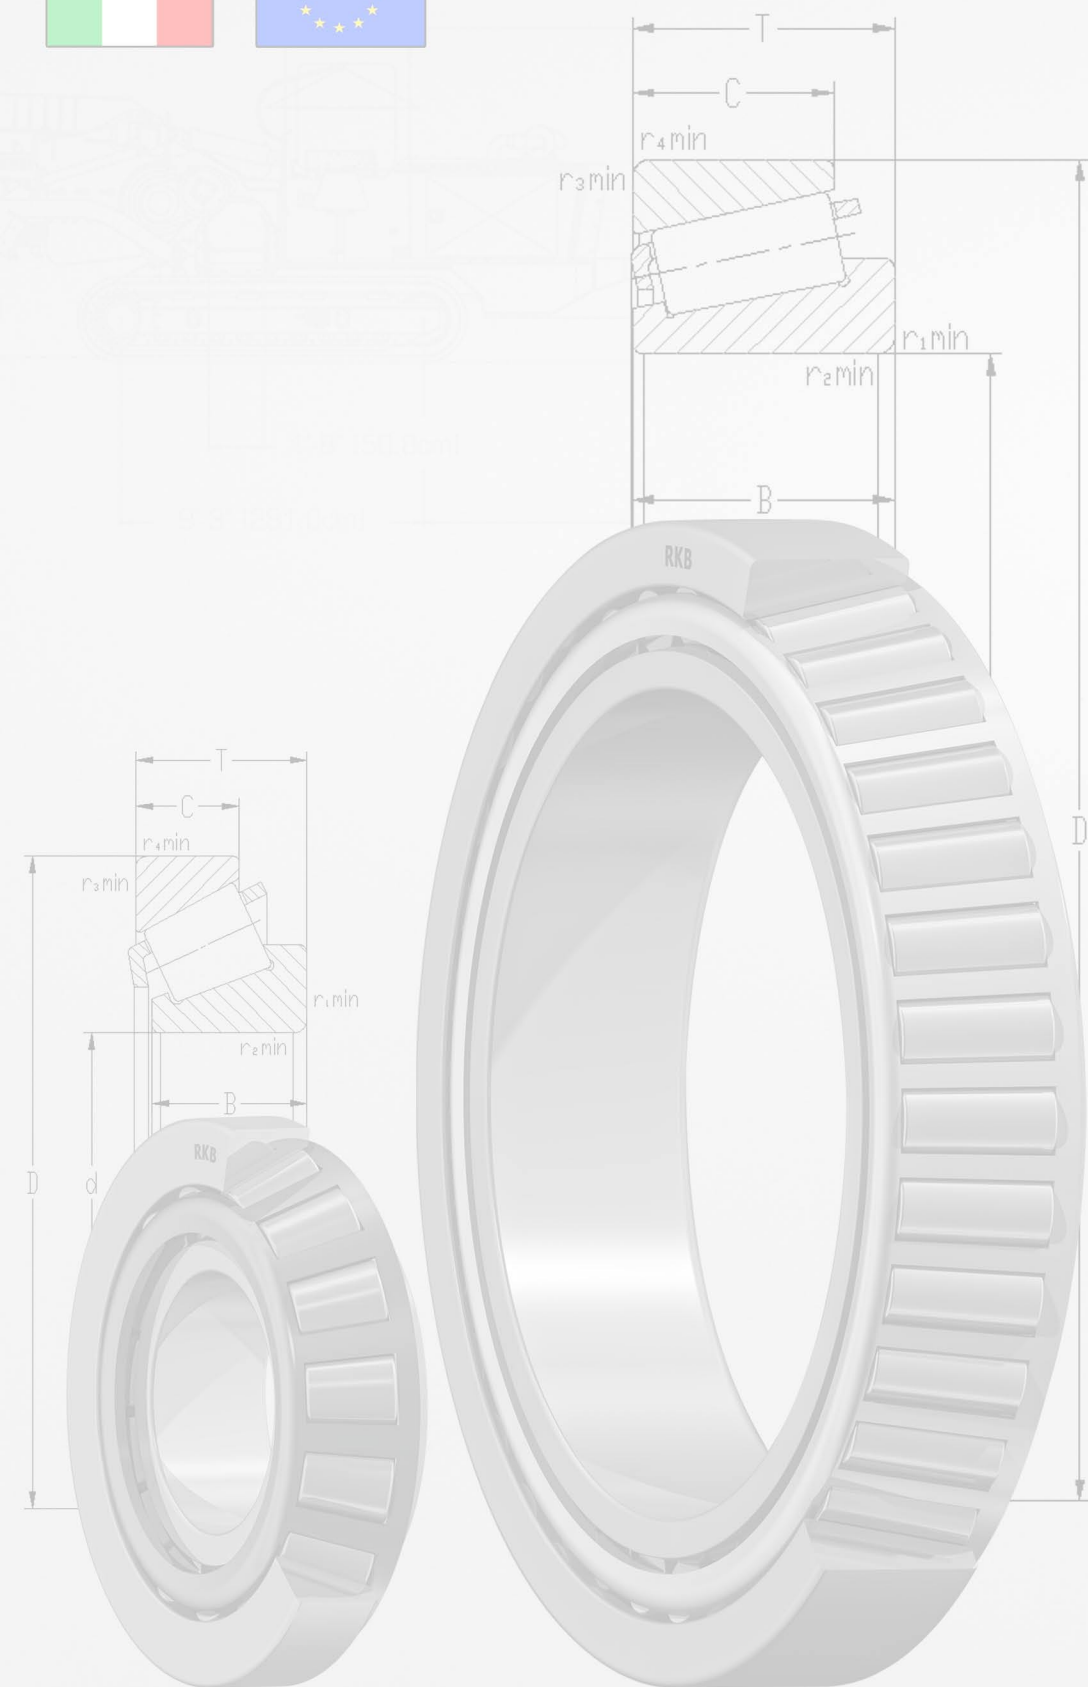

Project 'E.M. Gear'
Trencher flywheel gearbox

Main bearings: T3 Segment - Taper roller bearings

E-Type design taper roller bearings with optimized inner geometry for high load capacity and precise axial adjustment on shafting

Low-speed shaft of 240 mm diameter with highly productive trenching requirements

RKB Bainite Treatment (HB) to support heavy shock loads

Project 'E.M. Gear'
Trencher flywheel gearbox
